

მ. ზაქარაძის სამეცნიერო სტატიების სია

1. Приближенное построение конформно отображающих функций для односвязных областей. Тр. ВЦ АН ГССР, 18 (1978), №1, 5-19. Соавтор Э. Р. Аскеров.
2. Об изучении сил в сейсмическом очаге.
Сообщ. АН ГССР, 99 (1980), №1, 81-84.
Соавтор М.А. Алексидзе.
3. Об одном случае действия сил сейсмическом очаге. Сообщ. АН ГССР, 100 (1980), №1, 85-88.
4. Об устойчивости определения параметров сил в сейсмическом очаге.
ДАН СССР, 259 (1981), №3, 559-562 . Соавтор
М. А. Алексидзе.
5. Об устойчивости решения некоторых линейных обратных задач сейсмологии. Сообщ. АН ГССР, 106 (1982), №1, 57-60.
6. О точности решения некоторых прямых и обратных задач сейсмологии. Сообщ. АН ГССР, 108 (1982), №1, 65-68.
7. О реализации схемы приближенного построения конформно отображающих функций для односвязных областей с помощью ППП УРР2. Тр. ВЦ АН ГССР, 23 (1983), №1, 129-142 . Соавтор З. М. Панджакидзе.
8. Замечание о решении некоторых прямых и обратных задач сейсмологии в случае действия дипольных сосредоточенных сил (ДСС). Сообщ. АН ГССР, 19 (1985), №2, 289-292.
9. Численное решение прямых граничных задач теории упругости для изотропного упругого тела. Тр. ИВМ АН ГССР, 26 (1986), №1, 99-108. Соавтор Н. Коблишвили.
10. Об одной матрице фундаментальных решений уравнения динамики теории упругости. Тр. ИВМ АН ГССР, 26 (1986), №1, 55-64.
11. Об одном алгоритме численного решения некоторых прямых динамических задач теории упругости. Тр. ИВМ АН ГССР, 28 (1988), №1, 101-107.
Соавтор Н. Коблишвили.
12. Численное решение некоторых задач теоретической сейсмологии методом фундаментальных решений. Известия АН АРССР, Наука о Земле, 17 (1989), №6, 59-63 . Соавтор
М. Х. Мкоян.

13. О приближенном решении некоторых прямых задач динамики теоретической сейсмологии для полупространства методом фундаментальных решений.
Сообщ. АН Грузии, 145 (1992), №3, 549-552).
Соавтор Н. Коблишвили.
14. On one approximate method of the conformal mapping. Proc. A. Razmadze Math. Inst. Vol, 120 (1999), 153-164.
With Z. Natsvlishvili, Z. Sanikidze.
15. On conformal mapping of a unit disk onto finite domain. Proc. A. Razmadze Math. Inst. Vol, 123 (2000), 93-103.
With Z. Natsvlishvili, Z. Sanikidze.
16. On the method of fundamental solutions and some aspects of its application. Proc. A. Razmadze Math. Inst. Vol, 123 (2000), 41-51. With L. Lazarashvili.
17. On some aspects of the solution of practical problems by the method of conformal mapping. Reports of Enlarged Session of the Seminar of I. Vekua Inst. Appl. Math. Tbilisi State Univ., Vol, 16 (2001), №3, 111-117.
18. On approximate solution of the Dirichlet Problem for a harmonic function in the case of infinite plane with a cut-type hole. Transactions of the Int. Symp. on the Problems of Thin-walled Space Structures, Georgian Technical University, Tbilisi (2001), 137-142 . With N. Koblishvili
19. On approximate solution of the Dirichlet Problem in the case of infinite plane with holes. Proc. A. Razmadze Math. Inst. Vol, 129 (2002), 87-98 . With N. Koblishvili.
20. On one modified version of MFS for conformal mapping of infinite domain onto the unit disk. Proc. A. Razmadze Math. Inst. Vol, 129 (2002), 129-141
21. **On solving of Dirichlet plane external problem for the Laplace equation by the modified version of MFS.** J. Applied Mathematics and Informatics (AMI) , Vol. 7, №2, 2002, 78-89).
With N. Koblishvili.
22. On reduction of the Dirichlet generalized boundary value problem to an ordinary problem for a harmonic function. Proc. A. Razmadze Math. Inst. Vol, 132 (2003), 93-106 .
With Z. Tabagari, N. Koblishvili.
23. **A method of probabilistic solution to the ordinary and generalized plane Dirichlet problem for the Laplace equation.** Science and Computing, Proc. Sixth

- ISTC Scientific Advisory Committee Seminar, Vol. 2, Moscow (2003), 361-366 .
With A. Sh. Chaduneli, Z. A. Tabagari.
24. A computer simulation of probabilistic solution to the Dirichlet plane boundary problem for the Laplace equation in case of an infinite plane with a hole. Bull. Georg. Acad. Sci. Vol. 171, №3, 2005, 437-440.
With A. Sh. Chaduneli, Z. A. Tabagari.
 25. **On solving the Dirichlet generalized boundary problem for a harmonic function by the method of probabilistic solution.** Bull. Georg. Acad. Sci. Vol. 173, №1, 2006, 30-33 .
With A.Sh. Chaduneli, Z. A. Tabagari .
 26. On solving the Dirichlet boundary problem for the Poisson equation by the method of conformal mapping. Proc. A.Razmadze Math. Inst. Vol.141 (2006), 1-13.
With K. Amano, Z. Natsvlshvili.
 27. On approximate solution of some direct dynamic problems of theoretical seismology. J.of Georgian Geophysical Society, Is. (A), Physics of Solid Earth, v. 11, 2007, pp. 94-104.
With T. Chelidze, J. Kiria, N. Lekishvili.
 28. On solving the interior three-dimensional Dirichlet problem for a harmonic function by the method of probabilistic solution. Bull. Georg.National Academy of Sci., vol. 176, # 1, 2008, 25-27. With A. Chaduneli, Z. Tabagari.
 29. On Solving the Dirichlet Generalized Problem for Harmonic Function by the Method of Fundamental Solution. Reports of the seminar of I. Vekua Institute of Applied Mathematics,v. 34, 2008 , 24-32. With N. Koblishvili, A. Karageorghis, Y. Smyrlis.
 30. On Matrix of Fundamental Solutions of the Equation of Dynamic Elasticity Theory. Electronic Scientific Journal: Computer Science and Telecommunications, 2009, 4(21), 200-213.
With Z. Sanikidze, N. Koblishvili.
 31. On Approximate Solving of some Dynamic Problems of Elasticity Theory. Proc. A. Razmadze Math. Inst. Vol. 152 (2010), 59-71. With Z. Sanikidze, N. Koblishvili.
 32. On Solving the External three-Dimensional Dirichlet Problems for a Harmonic Function by the Probabilistic Method. Bull. Georg. Natl. Acad. of Sci., vol. 4, #3, (2010), 19-23 . With Z. Sanikidze, Z. Tabagari.
 33. A note on the univalence of approximate conformal mapping functions. Proc. A. Razmadze Math. Inst. 157 (2011), 1-10 . With K. Amano, G. Silagadze.

34. A method of conformal mapping for solving the generalized Dirichlet problem of Laplace's equation. Proc. A. Razmadze Math. Inst. 160 (2012), 71-89.
With M. Kublashvili, Z. Sanikidze
35. One model of reduction of the Dirichlet generalized problem to ordinary problem for harmonic function. Several Problems of applied Mathematics and Mechanics. Nova Science Publishers; Mathematics Research Developments; Nova Science Publishers, New York, (2013), 111-123. With Z. Sanikidze, N. Koblishvili, Z. Natsvlishvili.
36. On solving the Dirichlet generalized problem for a harmonic function in the case of infinite plane with holes. Proc. A. Razmadze Math. Inst. 164 (2014), 71-82.
With N. Koblishvili.
37. On solving the Dirichlet generalized problem for a harmonic function in the case of an infinite plane with a crack-type cut. Proc. A. Razmadze Math. Inst. vol. 168 (2015), 53-62.
With M. Kublashvili, Z. Sanikidze, N. Koblishvili.
38. Investigation and numerical solution of some 3D internal Dirichlet generalized harmonic problems in finite domains. Transactions of A. Razmadze Math. Inst. 171 (2017) 103-110.
With M. Kublashvili, Z. Sanikidze, N. Koblishvili.
39. The method of probabilistic solution for 3D Dirichlet ordinary and generalized harmonic problems in finite domains bounded with one surface. Transactions of A. Razmadze Math. Inst. 172 (2018) 453-465. With B. Mamporia, M. Kublashvili, N. Koblishvili.
40. The method of probabilistic solution for determination of electric and stationary fields in conic and prismatic domains, Transactions of A. Razmadze Math. Inst. 174 (2020), 2, 235-246.
With M. Kublashvili, N. Koblishvili, A. Chakhvadze.
41. On the Investigation of an Analytical Solution of a Certain Dirichlet Generalized Harmonic Problem. Sem. of I. Vekua Inst. Appl. Math., Rep., 47 (2021), 81-86.
With M. Kublashvili, Z. Tabagari.
42. On numerical solving of the Dirichlet generalized harmonic problem for regular n-sided pyramidal domains by the probabilistic method. Transactions of A. Razmadze Math. Inst. 176 (2022) issue 1, 123-132. With M. Kublashvili, Z. Tabagari and N. Koblishvili.

43. On approximate solution of the Dirichlet harmonic problem for an infinitive plane with a cut-type hole. GESJ: Computer Science and Telecommunications, No. 1 (61) (2022), 7-12.
With Z. Tabagari and N. Koblishvili.

44. Computer modeling of a probabilistic solution for the Dirichlet generalized harmonic problem in some finite axisymmetric bodies with a cylindrical hole. Bulletin of TICMI 26, 2 (2022), 37-52.
With Z. Tabagari, Z. Sanikidze and E. Abramidze.

45. The numerical solution of the external Dirichlet generalized harmonic problem for a sphere by the method of probalistic solution. Mathematics, 11, (3) 539 (2023). [https://doi. Org/10.3390/math11030539](https://doi.org/10.3390/math11030539) (IF).
With Z. Tabagari, N. Koblishvili, T. Davitashvili, JM. Sanchez, F. CriadoAldeanueva.

46. M. Zakradze, Z. Tabagrai, M. Mirianashvili, N. Koblishvili, T. Davitashvili. The Method of probabilistic solution for the Dirichlet generalized harmonic problem in irregular pyramidal domains. Trans. A. Razmadze Math. Inst., 177(2023), issue 3, 475-483
