

- **"Methodological guidelines for calculating the seismic impact on a one-story reinforced concrete industrial frame building."** - "Technical University" publishing house, Tbilisi, 2016; Co-author- L. Balanchivadze;
- **„Design of reinforced concrete constructions according to Euronorms"** - "Technical University" publishing house, Tbilisi, 2016; Co-authors- L. Kakhiani; L. Balanchivadze;
- **"Calculation of reinforced concrete frame seismic resistance using tables."** - Scientific and technical magazine "Construction" N3(42), Tbilisi 2017; Co-authors- Z. Kavelashvili; M. Tavadze; X. Gorjoladze;
- **"Theoretical investigation of limit state parameters for reinforced concrete elements."** - Scientific and technical magazine "Construction" N3(42), Tbilisi 2017; Co-author- G. Dolidze;
- **„Reinforced concrete constructions: a small course for graduate students"** - "Technical University" publishing house, Tbilisi, 2019;
- **"Factor Analysis of Tensile Strength in Reinforced Concrete Slabs"** - Scientific and technical magazine "Construction" N1(48), Tbilisi 2018; Co-authors- I. Rtveladze; N. Nakvetauri;
- **"Strength of Reinforced Concrete Frames under Seismic Impact"** - The International Symposium "Seismic Resistance and Engineering Seismology" is dedicated to the 100th anniversary of Professor Giorgi Kartsivadze. Collection, Tbilisi 2019; Co-authors- A. Tabatadze; B. Modebadze;
- **"Seismic Analysis of Reinforced Concrete Frames"** - Theses of reports of the second international symposium "Seismic resistance and engineering seismology", Tbilisi 2019; Co-authors- A. Tabatadze; B. Modebadze;
- **"Theoretical investigation of the dynamic strength of the reinforced concrete frame according to the current norms of Georgia and the norms of the former Soviet Union"** - Scientific and technical magazine "Construction" N3(56), Tbilisi 2020; Co-author- V. Tsibadze;
- **"Methodological instructions, with an example of a course project calculation for master's students in special building constructions; Calculation of a reinforced concrete frame building's seismic impact using a one-mass oscillating system calculation model."** - "Technical University" publishing house, Tbilisi, 2021; Co-author-N. Sharashenidze.
- **"General Principles of Seismic Construction: Current National Seismic Norms in Georgia"** - "Technical University" publishing house, Tbilisi, 2021;
- **„The first Georgian space object, the one that should be noted“** - " " publishing house, Tbilisi, 2021; Co-author- R. Omanadze
