1	The influence of the level of concentration of active silt and waste-water on the work of clarifier in silt collector	Pr.	Journal "Hydroengineering" N 1 (1) , 2007	P.120-124	Z. Zalikashvili, B. Chkhenkeli, M. Chachanidze.
2	Prediction of failure probability in main pipelines.	Pr	Journal "Hydroengineering" N 2 (2) , 2007	p. 60-62	Z. Zalikashvili
3	Biochemical metod of sewage water purification.	Pr.	Journal "Hydroengineering" N 1 (5) , 2008	p. 56-60	Z. Zalikashvili, M. Chachanidze.
4	Some issues of transition of Georgia to the way of steady progress in the sphere of technogenic and environmental safety.	Pr.	GEORGIAN ENGINEERING NEWS, No. 1, (vol. 53), 2010	p.100-101	Z. Zalikashvili, P. Giorgadze, G. Verulava.
5	The effect of the heights of suspended and protective layers on the efficiency of clarifier operation.	Pr.	GEORGIAN ENGINEERING NEWS, No. 1, (vol. 57), 2011	p.82-86	Z. Zalikashvili
6	Investigation of the processes of aerobic stabilization of active silt.	Pr.	GEORGIAN ENGINEERING NEWS, No. 1, (vol. 61), 2012	p.86-90	Z. Zalikashvili
7	Clarifier with a suspended silt layer for desilting and waster clarification.	Pr.	GEORGIAN ENGINEERING NEWS, No. 1, (vol. 65), 2013	p.156-157	Z. Zalikashvili
8	Use of finite differences methods at liquid unsteady flow in pressure pipeline.	Pr.	Journal "Building" N 1(44) 2017 http://dspace.nplg.gov.ge/handle/1234/220802	P. 149-152	M. Tofuria
