

List of Scientific Papers

1. Fundamentals of Management (Help Guide). Registered by the editorial-publishing board of Stu in 2020.
2. Algorithm for systematic analysis and research of situation management. On the example of the company. .Tbilisi. Georgia October 21, 2022. ISSN 1512-0538
3. Analytical aspects of the main characteristics of information communication systems in project management. . Kutaisi. Georgia October 20, 2023 Released for printing
4. Criteria for supporting project management communication parameters and new evaluation approaches. Kutaisi. Georgia October 20, 2023 Released for printing
5. Elaboration of the electrical scheme for the calculation of dynamic processes in the electric power supply converter system of the railway electric transport, taking into account the IGBT transistor module controlled three-phase inverter unit. .Tbilisi. Georgia 2023, scientific-technical refereed journal Energy.1(105)/2023 ISSN 1512-0120
6. Development of impulse control algorithms taking into account the IGBT transistor module controllable three-phase reverse rectifier unit in the combined converter system of the railway AC electric transport power supply. .Tbilisi. Georgia 2023, scientific-technical refereed journal Energy.1(105)/2023 ISSN 1512-0120
7. Cost optimization mechanism and management efficiency improvement tool. Quarterly refereed and peer-reviewed international scientific journal. No. 3-4 2022 ISSN 1512-0538
8. Means of development and improvement of transit corridor of Georgia with the help of information communication network. .Tbilisi. Georgia May 15-16, 2023. ISSN 978-9941-33-517-4
