No	Title of the article	Number of pages	Edition	Co-author
1	Heating manual	264	GTU 2017	O. Giorgobiani
2	Increasing the energy efficiency of buildings by selecting the optimal thermal technical characteristics of the enclosing constructions	6	Journal "Construction" #1(44) 2017	A.Kopaliani I.Margishvili
3	Energy-efficient buildings and their main thermal technical characteristics	4	Journal "Construction" #2(45) 2017	A.Kopaliani I.Margishvili
4	Building energy efficiency increasing tourism household At the expense of the thermal energy of running water	6	Journal "Hydroengineering" #1-2(23-24), 2017	A.Kopaliani D.Kuchukhidze
5	Fire protection ventilation in high-rise buildings	5	Journal "Construction" #4(47) 2017	A.Kopaliani
6	Energy efficiency classes and energy standards of buildings	5	Journal "Construction" #2(49) 2018	A.Kopaliani

7	polished surfaces thermal protection gravitation jets	5	Journal "Construction" #3(52) 2019	A.Kopaliani S.Goderdzishvili
8	low energy requirements Boundary of buildings constructions thermal technical data	6	Journal "Construction" #4(53) 2019	A.Kopaliani V.Bokeria
9	buildings energy efficient hot water supply systems	8	Journal "Hydroengineering" #1-2(27-28), 2019	A.Kopaliani
10	Heating with ice	5	Journal "Construction" #1(54) 2020	A.Kopaliani V.Bokeria
11	microclimate Settings and buildings thermal protection	7	Journal "Construction" #1(61) 2022	A.Kopaliani S.Goderdzishvili
12	Thermal protection of buildings Plinth heating during arrangement	6	Journal "Hydroengineering" 2022	A.Kopaliani S.Goderdzishvili
13	residential house Ventilation (design and arrangement)	8	Journal "Construction" #4(64) 2022	A.Kopaliani O.Giorgobiani
14	low temperature Heating systems	7	Journal "Construction" #2(66) 2023	A.Kopaliani O.Giorgobiani
