

1. On the machine implementation of solutions to the Almani-Michell problems for the jagged region. Proceedings of the Armed Forces of the Academy of Sciences of the GSSR, XXI: I, Tbilisi, Metsniereba, 1981, p. 5-21. (in Russian) problem of elasticity theories. Proceedings of the Armed Forces of the Academy of Sciences of the GSSR, XXI: I, Tbilisi, Metsniereba, 1981, p. 140-149
2. Stressed state of flexible layered shells of rotation, taking into account the heterogeneity of transverse shear deformations. Report of the Academy of Sciences of the Ukrainian SSR, Ser. A, 1988, 9, p. 30-34.(in Russian)
3. .On one version of the refined theory of flexible layered orthotropic shells. Appl. Mechanics. Kyiv, 1989, - 25, No. 8, p.44-52. (in Russian)
4. Numerical solution of the problem of deformation of a flexible layered ellipsoidal shell taking into account transverse shear. Institute of Mechanics, Kyiv, 1988. – 10 p. Dep. at VINITI 02.28.89. No. 1332—B89. (in Russian)
5. Calculation of the stressed state of conical flexible layered shells based on one version of the refined theory. Institute of Mechanics, Kyiv, 1989. – 10 p. Dep. at VINITI 10/11/89. No. 6217—B89.
6. Temperature problem on the deformation of flexible layered shells of revolution in a refined formulation. Prik. Mechanics. Kyiv, 1993, - 29, No. 5, p. 55-59(coauthor Grigorenko Ya.M.). (in Russian)
7. On one variant of improved, more accurate theory of слоистых оболочек вращения в постановке. Прикл. Механика. Киев, 1993 laminated elastic orthotropic shells of уточненной rotation in unsymmetric. с deformations. Bulletin of TICMI, 2, 1998, 17-22.
8. Refined stress analysis of flexible multilayered shells of revolution with orthotropic layers of variable thickness. International Applied Mechanics, 37, 11, 2001, 1433-1140 (coauthor Grigorenko Ya.M.).
9. The stress state of multilayer flexible cylindrical shells of variable stiffness, Journal International Applied Mechanics, vol. 39, 2, 2003, pp. 211-216.
10. On one version of axisymmetric deformation of flexible shells of rotation, Periodic scientific journal Intellect, 2, 25, 2006 p. 20-22 (co-author Sanikidze Z. D.)
11. On improved numerical solution scheme for a certain integral equation, Intellecti, (Tbilisi), 2, 25, 2006, pp 17-19 (coauthor Sanikidze Z.)
12. Determination of the normalizing factor for a path integral, Intellecti (Tbilisi), 2, 25, 2006, p. 32-34 (co-authors: Khukhunashvili Z..V., Mirianashvili M.G.)
13. Representation of solutions of parabolic equations by path integrals, Intellecti (Tbilisi), 2, 25, 2006, p. 29-31 (co-authors: Khukhunashvili Z..V., Mirianashvili M.G.)
14. The thermo-elasticity Problem of Deformation of flexible multilayered shells of revolution with layers of variable thickness in a refined Setting, Seminar of I. Vekua Institute of Appl. Math.Reportts. V.34, 2008, p.11-17.
- 16 On one variant of an axisymmetric nonlinear deformation of shells of revolution under supercritical load, Report of Enlarged Session of the Seminar of I. Vekua Institute of Appl.Math.V.22, 2008, p.55- 59
17. The thermo-elasticity Problem of Deformation of flexible multilayered shells of revolution with layers of variable thickness in a refined Setting, Seminar of I. Vekua Institute of Appl. Math.Reportts. V.34, 2008, p.11-17.
18. On the numerical solution of nonlinear problems for flexible layered shells using a refined theory. Scientific and technical Construction magazine. Tbilisi, No. 3(18), 2010, p. 37-42 (co-author V.V. Chankotadze)
19. NUMERICAL SOLUTION OF LAIERED CYLINDRIKAL SHELLS NONLINEAR DEFORMATION PROBLEMS BY APPLICATION OF IMPROVED THEORY. Scientific-technical journal “BULDINGS” № 2(25),2012.p.86-92.(coauthors: EL. Abramidze, M. Andguladze, V. Chankotadze).

20. NUMERICAL SOLUTION OF LAYERED ELIPSOIDAL SHELLS NONLINEAR DEFORMATION TASKS ON REFINED THEORI. Scientific-technical journal "BULDINGS" № 2(37),2015.p.31-36.(coauthors: EL. Abramidze, V. Chankotadze).
21. NUMERICAL SOLUTION OF LAYERED MEMBRANS DEFORMATION TASKS BASED ON DIFFERENT NONLINEAR THEORIES. Scientific-technical journal "BULDINGS" № 4(39),2015.p.57-61.(coauthors: EL. Abramidze, A. Kublashvili. V. Chankotadze).
22. Numerical solution of nonlinear deformation task in the case of a layered cylindrical shell by local surface force,reports of enlarged sessions of seminar of I.Vekua Institute of Applied Matematics Volume 32,2018,pp3-6 (coauthor El. Abramidze).
23. Analysis of nonlinear deformation task of the layered cylindrical shell by local surface force and temperature field, Appl.Math. Inform. Mech,246 №2,2019, pp1-7,Tbilisi, Tbilisi State Universsity (coauthor El. Abramidze)
24. Research of the Stress State of Flexible Multilayered Corrugated Cylindrical Shells of Rotation According to a Refined Theory (Edison Abramidze, Yaroslav Grigorenko) Bulletin of TICMI Vol. 26, № 01, 2022, 19-26.
25. Computer modelling of a probabilistic for the Dirichlet generalized harmonic problem in some axisymmetric bodies with a cylindrical hole (Mamuli Zakradze, Zaza Tabagari, Zaza Sanikidze, Edison Abramidze) Bulletin of TICMI Vol. 26 , № 02, 2022, 37-52.
